TECHNICAL SKILLS: Python, SQL, R, JS, ML, Git, Vim, Linux, Docker, Quarto, CI/CD, GIS, FastAPI

RELEVANT EXPERIENCE

LA County Department of Public Health – Los Angeles, CA

2021 – Present

Senior Data Scientist

- Led the end-to-end development of mission critical vaccination **data pipelines** from requirements planning to deployment and reporting to department and countywide stakeholders
- Drove cross-functional collaboration with epidemiology teams to deliver LA County disease immunizations **data dashboards**, key resources for governments and media outlets
- Acquired and setup technical resources for development and deployment of **server-based products** to downstream teams enhancing efficiency across multiple codebases and projects
- Identified **data modeling** deficiencies and executed an architecture change initiative to improve record retrieval times and reduce external **API** costs resulting in significant operational savings
- Involved in deployment of **GLM** and **NLP** models and communicated benefits of model adoption and necessity to remove manual and costly processes

City of Los Angeles I-Team – Los Angeles, CA

2021

Data Scientist

- Collaborated with public health workers to provide a **clustering analysis** used in prioritizing sending financial incentivized surveys to residents involved in disease outbreak

Chapman University Research Labs – Orange, CA

2019 – 2021

Researcher

- Drafted findings from **regression analysis** and **analysis of variance** for describing the relationship between crime in proximity to alcohol, tobacco, and marijuana outlets in South LA

Northrop Grumman – Palmdale, CA

2019

Software Engineer

- Implemented software unit tests in **C++** using to identify flight simulation software defects, validate code reliability, and contribute to the stability of **CI/CD** pipelines enabling faster and safer delivery of features

United States Marine Corps – San Diego, CA

2012 - 2017

Data Collection Manager

- Managed aerial vehicle and satellite data collection resources and collaborated with stakeholders to refine **priority information requests** avoiding unnecessary expenditures on redundant or low priority data collection

EDUCATION

University of Southern California, Viterbi School of Engineering – Los Angeles, CA

Dec 2024

Master of Science, Systems Engineering

University of Southern California, Marshall School of Business – Los Angeles, CA

Dec 2024

Master of Business Administration (STEM)

Chapman University, Fowler School of Engineering – Orange, CA

February 2021

Bachelor of Science, Data Analytics
